

## Year 11 Assessments May 17<sup>th</sup> to 28<sup>th</sup>

Your teachers will use the last two weeks of term to provide questions recently provided by the examination boards. This widens the amount and range of evidence used and enables you to complete papers that are longer than 50 minutes. Your answers will form part of the evidence used to decide your overall grade.

These are not exams but the highest standards of conduct are expected during these assessments so that all students can fully concentrate and do their best. The main rules are:

- Silence at all times during the assessment
- Do not attempt to distract or communicate with another student
- If you have a question, raise your hand and the member of staff will help you

Breaking these regulations could have an impact on your evidence and the grade your teacher is therefore able to award.

For almost every assessment, you will follow your normal timetable with the same room and the same teacher. On some occasions, the member of staff who supervises your assessment may not be your usual teacher. This applies when you have your English and Maths papers for example. This does not matter as it is not permitted for teachers to give answers or provide help during these assessments anyway.

All students who are eligible will have additional time provided, either in the classroom or in an alternative venue.

Your timetabled lessons will run as normal throughout the two weeks. When you don't have an assessment, lessons will focus on gathering additional evidence for the awarding of grades and preparation for the next stage of your education.
