

10 May 2021

Dear Parent/Carer

Now that the students have settled back into school life we are looking to produce a report on each student's current progress. We have decided that this will take place towards the end of next term to ensure that there has been an extended period of time where teachers have been able to work with their classes without disruption, supporting students as needed following the period of school closure.

As part of this there will be an assessment week beginning the 21st June. We are hoping that the majority of these assessments will be completed in the hall in order for students to gain experience of conditions they are likely to experience in Year 11. A final decision regarding the venues will be communicated to students and parents nearer the time, depending on Covid related restrictions. Once the results of the assessments have been collated and processed you will receive a report of current progress; an opportunity to meet with teachers will be planned for early in the next academic year.

Yours faithfully

Mark Beaman
